

Award-winning identity protection to enhance business offerings

Give your small business account holders a secure space to innovate

From data breaches to business identity theft — small business owners are under siege and under-prepared for the threats of today's business landscape.

But what if there was a way to protect them while reaching your small business program goals at the same time?

EZShield Business ID Restoration Pro helps safeguard small business owners with a comprehensive “Secure, Monitor, Restore” approach so they can spend time growing their business and you can grow your relationships.

Identity Crimes Disproportionally Impact Businesses

Small business owners
have a **2x**
greater risk of fraud¹

In 2015,
93%
of data breaches were
preventable²

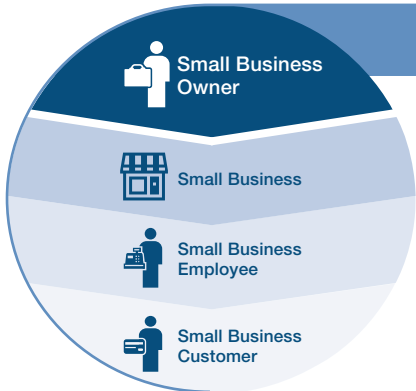

Of businesses who checked
their credit report

25%
discovered errors³

EZShield Business ID Restoration Pro

Business ID Restoration Pro enables you to provide peace of mind to your small business account holders by delivering in-demand identity protection offerings. Let us help you design the right solution for your goals and objectives.

Small business security means protecting the owner, their employees, customers and the business itself.

Why Small Business Protection is Critical

- Larger Financial Assets at Risk** Business owners are lucrative targets relative to non-business owners
- Lack of Internal Safeguards** Employee access to company information and assets
- Customer Data** Private customer data they are obligated to protect
- Insufficient infrastructure** Lack of time, money and expertise

Customer Feedback

“...I am a person that truly believes customer service takes priority over price. Although with EZShield, I got the best of both...”
–Brenda B., Small Business Customer

How EZShield Protects Small Businesses:
